LOWER MERION WINS STATE ATHLETIC TITLE

Main Line Lads Outscore Formidable Field in Interscholastic Championship Events at Bethlehem; Ridley Park Second; Media Takes Third

BETHLEHEM, Pa., May 12.

LOWER MERION and Ridley Park High School athletes fought it out for the championship honors in the fourth annual track and field events of district one, Pennsylvania Interscholastic Athletic Association, in Taylor Stadium at Lehigh University here this afternoon.

Not until the closing events did Lower Merion succeed in drawing away from a comfortable lead and finished with the titular honors with a point total of 37. Ridley Park was second, with 20, and Media High, third, with 16.

One of the prettiest relay races ever witnessed on Lehigh field and the result of which was a severe blow to the track Pottsville High team, was the second heat of the Class A relay. Due to the large number of entries, the heats were run off, incidentally, that Chester, winner of the event, and Pottsville, a strong favorite, competed in the second heat.

In winning the race, West Chester outsmarted the Pottsville quartette, allowing the latter to set the pace to the finish and then overhauling the boys from the coal regions. Baird, running anchor for West Chester, ran a beautiful race. Pottsville had Gould, its crack quarter-miler, to run anchor, and the latter set the pace to the stretch, but overcame a lead of more than [illegible] to win in a very close finish.

The Class B championship, with five schools entered, was a walk-away for Media High, the anthracite scholastics scoring points in every one of the events. Their total points were 72, against 41 for Glen Nor.

their form, but who were also exhibiting super-polo.

Several times during the eight periods the Bala four made sensational plays that proved amazing, particularly insofar as the players always being in the right position to receive the ball when in a scoring stance.

Coyle, who is making his initial appearance this season with Country Club, is one of the greatest players rating at two goals. Never once did Mr. Coyle swing a short mallet when he had a chance to score—and as he tallied five of his team's markers before calling it a day it may be gathered that the Number Two player was very much in the picture.

And any player who is capable of scoring such a number of goals in one afternoon is not only playing the game right to the hilt, but his judgment for distance must also be of the accurate order.

This is exactly the way Coyle sized on his form. It was his cunning and the ability to make the most use of everything that came his way which materially aided and abetted his team to enter the final round of the cup series.

The same can also be said of [illegible]
